

Chlorinators - Liquid Feeders

MAGNA-CHEM

Magna-Chem - Liquid Chlorine & Acid Feeders

CpHP-pH pump / ORP Liquid Chlorine Pump

Magna-Chem feeders feature a new durable sealed capsule, which allows it to be installed either in or outdoors.

Designed to accurately control combined chlorine and pH dosing (Acid) automatically, in a single unit. The dosing is controlled by individual probes installed in the return to pool water line.

CSA-2P - Liquid Chlorine Feeder

Magna-Chem feeders feature a new durable sealed capsule, which allows it to be installed either in or outdoors.

Designed to accurately dose liquid chlorine into the return to pool pipe line. Dosing is controlled by a probe installed in the return line which will automatically dose when required.

CS-1P - Semi Automatic Chemical Feeder

Magna-Chem feeders feature a new durable sealed capsule, which allows it to be installed either in or outdoors.

Designed as an economical liquid chlorinator, or acid feeder to dose the pool water at regular intervals.
